ALBERT GONZALEZ

ASSISTANT PROFESSOR OF ANTHROPOLOGY,
CSU EAST BAY

EXCAVATING LATINIDAD: ARCHAEOLOGIES OF LATINXS IN THE UNITED STATES

From the ruin of a nineteenth-century Southwestern whiskey distillery to the recent proliferation in Florida of cartel-associated Mexican folk saint imagery, the material cultures of American Latinxs are as colorful as they are poorly understood. This talk navigates the rich multiplicity of those material narratives, weaving a synthesis of archaeological and material culture studies focused on Latinxs in the United States, past and present.
